There needs to be more time given to the elements and principles and more art examples given so that students are better equipped to identify such things when doing a formal analysis.. The authors do not spend an adequate amount of timespace on each element Again, no context is given for each element and its many facets.. The chapter on architecture could have been condensed so much more and included in the mediums section.. However, there are times the authors delve into topics that seem irrelevant to an intro to art text.. For instance, Chapter 3 on cultural value of materials is very out of place in this text.. In the text, there are conventional transliterations of artists names For instance, for artist Do Hó Suh, the name is spelled Dó Ho Su ón page 92, and Wassily Kandinsky is spelled Vasily Kandinsky on page 106.. I think the strongest chapters in this book that any intro to art class could benefit from are chapters 1, 5, and 11.. One area that really stood out to me as disorganized is found in Chapters 2, 3, and 4.. For instance, in the printmaking section, they do not show an art example for each process, so the students reading would have no idea what a screen print even looks like. 0041d406d9 [Macos High Sierra Version 10.13.6 Download](#)
